

GALOPPEN SCORER JOB DESCRIPTION

The job involves calculating scores according to the current rules – these can be found on the SWOA website in the *Documents* section; sending them to the website manager without delay, preferably in the week after the event; sending limited score tables to the editor of SINS; and sorting out prizes and trophies at the end of the series. Competitors have to be checked against the SWOA membership list, which will be provided. Expenses will be paid. The scorer needs a reasonable expertise with Excel, and a reliable broadband connection.

You will not be required to arrange the list of Galoppen events, nor to be at them.

If you are interested please contact the SWOA Secretary as soon as possible.
